Fieldprint Begins Offering FBI Checks to CNCS Grantees

Dear Colleagues,

FBI checks for individuals in covered positions are now available through Fieldprint. Fieldprint is the FBI-approved Channeler selected by CNCS to provide grantees and subgrantees that cannot successfully obtain checks through their state repositories with a means to do so. To get started, visit Fieldprint's [CNCS-specific webpage](#) or review [CNCS's guidance on using Fieldprint](#) which includes step-by-step instructions for using these services to conduct FBI checks.

Over the coming weeks, CNCS will also offer several webinars on how to use Fieldprint's services. Save the dates and times below to your calendar, and use the links and dial-in information provided to join at the time that is most convenient to you. The content of each session will be identical and a recording of one session will be made available after the trainings. These sessions are open to all CNCS grantees and subgrantees.

- Thursday, January 28, 2pm to 3pm ET
