*“As a teacher development program committed to recruiting, training, supporting and retaining diverse teachers for urban public schools, TEAMS has relied on the AmeriCorps Professional Corps grant to attract the very best teacher candidates for our schools. Not only has AmeriCorps helped to make teacher credentialing accessible to our Teaching Fellows, it has also brought prestige to the profession of teaching by recognizing it as a critical national service position.”*

--Mary Rose Fernandez, Director  
TEAMS (Teacher Education for the Advancement of a Multicultural Society)
