2010

AmeriCorps State and National Financial and Grants Management Institute

Monday, November 15th –
Wednesday, November 17th 2010
Dearborn, Michigan

Put together by the Office of Grants Management and AmeriCorps State and National at The Corporation for National and Community Service, in partnership with financial management training and technical assistance provider, MacArthur & Baker International, Inc (MBI Consulting).

This institute covers both financial and grants management topics for AmeriCorps State and National Direct grantees, sub-grantees, and State Commissions. Because each plays an integral role in financial and grants management, both programmatic and fiscal staff are encouraged to attend.

The institute will include general financial management topics such as financial reporting, fiscal monitoring, and budgeting, as well as specific sessions for AmeriCorps parent organizations, programs and State Commissions. CNCS staff and a team of expert trainers will support the various learning experiences so that participants leave with an increased understanding of federal financial management requirements and high quality practices. In addition, attendees will have the opportunity to network with and learn from one another. The goal of this year's institute is to help staff set the foundation for fiscal and programmatic compliance so they can focus on the real work of AmeriCorps programs.

More information, including the fees, specific training location, and schedule, will be coming soon. If you would like to be put on a list to get future communication about the event, please email Amy Salinas at CACconsulting@hotmail.com.

We hope to see you soon!
