Performance Measure Requirements

Measured in Unduplicated Volunteers*

1. Primary Focus Area:

- **Non-Stipend Programs:** Disaster Services, Economic Opportunity, Education, Environmental Stewardship, Healthy Futures, and Veterans and Military Families.
- **Stipend Programs:** Education or Healthy Futures, Aging in Place.

2. American Rescue Plan Funding Priorities: Priority funding will be given to applicants who are involved in at least one of the following:

- Establishing and supporting COVID-19 contact-tracing, vaccination sites and providing vaccine education, transportation, registration, etc
- Establishing and supporting programs in hard to reach communities and/or those disproportionately impacted by COVID-19.
- Supporting communities historically underserved, marginalized, and adversely impacted by persistent poverty and inequality, such as African American and Tribal communities.
- Supporting program models that focus on:
 - Education (children's learning loss, summer programs, etc.),
 - Health and wellness
- Serving veterans and military families
- Expanding the opportunities for senior volunteers in communities that have not previously received AmeriCorps Seniors resources.

3. National Performance Measures: Every national performance measure output must be paired with a single outcome. For each Performance Measure, applicants must select one output and one of the associated outcomes. While beneficiaries may receive benefits associated with more than one available outcome, select only one outcome for each beneficiary served.

4. Work Plan: All unduplicated AmeriCorps Seniors volunteers or Volunteer Service Years (VSY), which is 1 VSY equals 1,044 hours of service, must be placed in the work plan. The maximum cost per unduplicated volunteer in all Performance Measures included in the Work Plan may not exceed the allowable cost per volunteer or VSY as stated below.

5. Maximum Cost per Unduplicated Volunteer or VSY in Outcome Assignments:

- **Non-Stipend programs:** For every \$1,000 in base federal funding, at least one unduplicated volunteer* must be placed in the work plan that result in National Performance Measure outcomes.
- **Stipend Programs:** For every \$7,500 in base federal funding, at least one AmeriCorps Seniors VSY * must be placed in the work plan that result in national performance measure outcomes in the Education or Healthy Futures Aging in Place focus area.

Example: \$75,000 of federal funding divided by \$7,500 equals minimum of 10 VSYs placed into unduplicated volunteer outcome assignment.

6. **Unduplicated Volunteers*:**

- **Non-stipended programs** count actual unduplicated volunteers in outcomes of performance measures. Each volunteer can only be counted once even if they are assigned to more than one service activity. The volunteer should be counted in the area where he/she will make the most impact – in terms of the focus area, the type of service, or the scope of service (such as the greatest number of hours served).
- **Stipended programs** count Volunteer Service Years (VSY), which is calculated by taking the total hours of services spent on each performance measure divided by 1044 hours. To complete the Performance Measures module, stipended programs must enter volunteer service years into the number of unduplicated volunteer section of the work plans.

Example: \$75,000 of federal funding has a minimum of 10 VSYs equals 10,440 hours of service (10 multiplied by 1,044).

7. **Rounding Unduplicated Volunteers in Outcome Assignments:**

Common arithmetic rules should be used to determine how to round unduplicated volunteers in outcome-based work plans. Grantees should round to the nearest whole number. For example, an AmeriCorps Seniors grantee with stipend program requesting \$100,000 in federal funding would require 13.3 unduplicated volunteers in work plans that result in national performance measure outcomes ($\$100,000/\$7,500 = 13.3$). Since 13.3 is less than 13.5, this would be rounded down to 13 unduplicated volunteers in work plans that result in national performance measure outcomes. In contrast, a grantee with \$110,000 in federal funding (14.6 volunteers in outcome-based work plans) would round up and require 15 unduplicated volunteers in work plans that result in national performance measures outcomes.

8. **COVID-19 Performance Measure Resources:**
