

National Service in Indiana

MEETING COMMUNITY NEEDS IN INDIANA

More than 6,000 people of all ages and backgrounds are helping to meet local needs, strengthen communities, and increase civic engagement through national service in Indiana. Serving at more than 920 locations throughout the state, these citizens tutor and mentor children, support veterans and military families, provide health services, restore the environment, respond to disasters, increase economic opportunity, and recruit and manage volunteers.

This year, the Corporation for National and Community Service (CNCS) will commit more than \$17,620,000 to support Indiana communities through national service and social innovation initiatives. CNCS invests in cost-effective community solutions--working hand in hand with local partners to improve lives, expand economic opportunity, and engage citizens in solving problems in their communities. Serving in many of the state's most impoverished communities, CNCS provides vital support to schools, food banks, homeless shelters, community health clinics, youth centers, veterans service facilities, and other nonprofit and faith-based organizations at a time of growing demand for services. Through a unique public-private partnership, this federal investment will leverage an additional \$13,600,000 in other resources to strengthen community impact, build local support, and increase return on taxpayer dollars. Nationwide, CNCS, its grantees, and project sponsors generated more than \$1.25 billion in outside resources from businesses, foundations, public agencies, and other sources in FY 2015.

AmeriCorps: This year AmeriCorps will provide more than 980 individuals the opportunity to provide intensive, results-driven service to meet education, environmental, health, economic, and other pressing needs in communities across Indiana. Most AmeriCorps grant funding goes to the Serve Indiana, which in turn awards grants to nonprofit groups to respond to local needs. Most of the remainder of the grant funding is distributed by CNCS directly to multi-state and national organizations through a competitive grants process. Other individuals serve through AmeriCorps VISTA, whose members help bring individuals and communities out of poverty by serving full-time to fight hunger and illiteracy, improve health services, and increase housing opportunities, and AmeriCorps NCCC (National Civilian Community Corps), a 10-month, full time residential program for men and women between the ages of 18 and 24. In exchange for their service, AmeriCorps members earn an education award that can be used to pay for college or to pay back qualified student loans. Since 1994, more than 16,000 Indiana residents have served more than 21 million hours and have qualified for Segal AmeriCorps Education Awards totaling more than \$49,390,000.

Senior Corps: More than 5,000 seniors in Indiana contribute their time and talents in one of three Senior Corps programs. Foster Grandparents serve one-on-one as tutors and mentors to more than 3,800 young people who have special needs. Senior Companions help more than 290 homebound seniors and other adults maintain independence in their own homes. RSVP volunteers conduct safety patrols, renovate homes, protect the environment, tutor and mentor youth, respond to natural disasters, and provide other services through more than 630 groups across Indiana.

Social Innovation Fund: The Social Innovation Fund transforms lives and communities using limited federal investment as a catalyst to grow the impact of nonprofits with evidence of strong results. It harnesses the expertise of grantmaking intermediaries to identify, evaluate and expand effective nonprofits and engages funding partners to contribute nearly three dollars to every one federal dollar invested. As the Social Innovation Fund network grows programs that work in Indiana, more people are able to overcome their most pressing challenges in the areas of economic opportunity, health, and youth development. The Social Innovation Fund is investing more than \$2,750,000 in expanding the impact of 5 nonprofits in Indiana, selected and supported by 1 intermediary.

The Corporation for National and Community Service is a federal agency that improves lives, strengthens communities, and fosters civic engagement through service and volunteering. CNCS engages millions of Americans in service to meet local needs through Senior Corps, AmeriCorps, and national days of service; improves communities through the Social Innovation Fund, and leads volunteer initiatives across the nation. To learn more visit NationalService.gov or Serve.gov or call 202-606-5000 or TTY 1-800-833-3722.

TOTAL CNCS FUNDING + TOTAL LOCAL PROGRAM SUPPORT					\$31,227,762

Notes: The data shown represents a snapshot in time. CNCS project sites, participants, and funding change throughout the year, so the data may not reflect current conditions.

- ¹ This figure represents the number of awarded positions available to be filled in the 2016 - 2017 program year. For AmeriCorps VISTA, this represents the actual number of VISTA members in active service.
- ² This figure represents the maximum potential value of Segal AmeriCorps Education Awards that can be earned by AmeriCorps members serving in Indiana. The award can be used in any state to pay for college, graduate school, vocational training, or to pay back student loans. The education award total is included in total CNCS funding.
- ³ AmeriCorps National figures may include national programs headquartered in the state and/or operating sites of national programs that are headquartered in other states. Funding reflects the estimated proportionate share of the national grant associated with operating sites in this report. Some national organizations do not report operating site data, or it was not available at time of publishing, so figures may not reflect current conditions.
- ⁴ The service location total may contain multiple counts of unique locations where multiple CNCS programs are operating.
- ⁵ As part of its public-private partnership approach, CNCS requires grantees to leverage additional resources to strengthen community impact and increase the return on the federal investment. This figure reflects non-CNCS cash and in-kind resources that CNCS grantees and project sponsors have committed to raise or other revenue used to support their programming activities across the state. Last year, CNCS, its grantees, and project sponsors generated more than \$1.25 billion in outside resources from businesses, foundations, public agencies, and other sources.

Since 1994, more than 16,000 Indiana residents have served more than 21 million hours and have qualified for Segal AmeriCorps Education Awards totaling more than \$49,390,000.

State Commission

Serve Indiana manages a portfolio of 17 AmeriCorps State programs with more than 650 AmeriCorps members serving in 32 counties addressing critical needs in the areas of education, health, economic opportunity, disaster and capacity building. In the 2014-2015 program year, 37,148 economically disadvantaged students completed k-12 education programs. In addition, 23,749 students improved their academic performance in literacy and/or math. Additional programs include, but are not limited to, the Indiana Kids, Volunteer Roundtables, Serve Indiana Awards for Excellence, and Day of Service Mini-Grants.

AmeriCorps State

Indiana has two AmeriCorps programs that focus on early childhood education. Early Learning Indiana has 15 members who help pre-Kindergarten programs build their capacity to engage parents in their child's education and development, strengthen program-parent relationships, and help parents support their child's development, particularly in literacy. The AmeriCorps members are assigned to high-quality, pre-K programs in Fort Wayne, Evansville, and Indianapolis that participate in the state's pre-K pilot program. Near Eastside Education AmeriCorps members in Indianapolis are placed at Pre-K and elementary schools on the Near Eastside to provide education interventions for students and their families. The 23 AmeriCorps members tutor students to improve their math and literacy skills, help spark engagement with science, improve kindergarten readiness, and build parent confidence and capacity to support their children's academic performance.

Project ACES AmeriCorps has 165 members who serve at Boys & Girls Clubs in Bloomington, Ellettsville, Goshen, Middlebury, Nappanee, Elkhart, Evansville, Columbus, Franklin, Marion, Greenfield, Corydon, Crawford, New Albany, Jeffersonville, Bedford, Lebanon, Madison, Michigan City, Crawfordsville, Mooresville, Muncie, Noblesville, Rushville, South Bend, Tipton, Richmond, Hagerstown, Zionsville, Whitestown, and Culver. The members are positive role models for underserved children. The program offers homework help and supports healthy lifestyles, character and leadership development, and volunteer recruitment and management for Boys & Girls Clubs across Indiana. Thanks to the AmeriCorps members' support in the past year, more than 19,000 children completed education programming and more than 16,000 improved their performance in literacy and/or math. More than 60,000 children increased the amount of time they spent in physical activity. Members recruited more than 3,500 volunteers who gave more than 20,000 hours of service in youth development programs such as homework help and coaching.

AmeriCorps National

AIDS United AmeriCorps in Indianapolis has six full time members who provide HIV testing and counseling, health care access, prevention outreach, prevention education, and emotional and social services to at-risk populations. Members also respond to emergencies in the community. In the spring of 2015, Governor Pence declared a public health emergency due to an explosive increase in new HIV diagnoses. With their experience in HIV, dedication to service, and strong team dynamic, AIDS United AmeriCorps members provided residents of Scott County with critical services, including HIV testing, community education, and partner referrals for people who tested positive. Since 2005, members have informed almost 10,000 people of their HIV status through HIV rapid testing and counseled them on their risk behaviors. They extended community outreach to more than 15,000 people, providing information on HIV/AIDS risk reduction, community resources, and how to access care. Members have mobilized more than 1,100 volunteers in the Indianapolis area.

AmeriCorps VISTA

A team of six AmeriCorps VISTA members is serving at TeenWorks, which provides support services for low-income teens throughout the school year and a summer employment and college readiness program. TeenWorks aims to help teens develop self-confidence and recognize that going to college and being professionally successful is within their reach. The VISTA members have secured more than \$47,600 in operating funds and \$100,500 more in in-kind donations. They helped recruit 148 new community volunteers, who have given more than 500 hours of service. The members have helped TeenWorks to: develop standard operating procedures for all of its programs, revise and update the employee manual, create policies for the board of directors, investigate and choose databases for fundraising and operations, create the new Transitions Program and establish TeenWorks' social media presence, including a procedures manual. The VISTA members' efforts have directly affected over 570 at-risk high school students. They make a daily difference by their efforts with the TeenWorks 360 program and recruitment efforts for summer 2016.

National Service Impact in Indiana

Thanks to the AmeriCorps VISTA program, Indy Hunger Network has been able to develop and grow the Fresh Bucks program, which benefits local farmers and SNAP users within Greater Indianapolis. Fresh Bucks is a nutrition incentive program that doubles SNAP dollars spent on Indiana-grown fruits and vegetables at farmers markets and farm stands. In the first two years of operation, SNAP sales at markets operating the Fresh Bucks program increased 350 percent. Besides helping local farmers with increased sales, Fresh Bucks also directly helped citizens by allowing them to stretch their SNAP dollars on healthy, nutritious, local food. VISTA members set up partnerships with the Family and Social Services Administration, the State Departments of Health and Agriculture, and many community organizations in the Indianapolis area. This has had two big benefits: direct community outreach and more than \$130,000 in grant funds to expand the program. Fresh Bucks plans to expand next year to even more farmers' markets and stands, and to other outlets that are convenient for SNAP users.

AmeriCorps NCCC

The Hoosier National Forest contains about half of the state's public land, and attracts a substantial number of tourists for hunting, fishing, hiking, caving, and many other recreational activities. In partnership with the Forest, an AmeriCorps NCCC team surveyed and removed non-native plant species and conducted prescribed burns. The team burned 396 acres of land and prepared 19.3 miles of fire line. They planted a dozen trees and shrubs and 282 pounds of seeds. Along 10 miles of trails, the NCCC team installed 58 water bars. They refurbished and cleaned 25 public-use campsites for the upcoming camping season. The team's hard work helped maintain and even enhance the forest's biological diversity, reduced the amount of hazardous fuel in the forest, and protected recreational activities for tourists.

An AmeriCorps NCCC team partnered with the Hamilton County Parks and Recreation Department in Noblesville to build a community archery facility and other projects. The members helped build archery range fences, tamp down 11 fence posts, and seed one of the archery fields so that the facility can offer archery educational and safety programming and host archery related events and competitions. The team cleared 3,000 pounds of brush on the archery range's 3D trail, cleaned and tended the gardens, and swept and cleaned buildings. At a booth for the public that the department hosted at the Hoosier Outdoor Experience, members helped interpret artifacts and identify animal pelts. At the department's Twilight Trails Run and Walk, they helped with set-up, registration, trail marshalling, handing out water and medals, stocking a re-hydration table, and at the end, helped with break down and clean up.

Senior Corps Foster Grandparent Program

The Foster Grandparent Program of Hancock, Henry and Rush Counties, and its sponsor, The Interlocal Community Action Program, are both celebrating 50 years of serving the community. The Foster Grandparent Program's 55 grandparents serve at least 350 students at 17 public schools, daycare centers, and Head Start classrooms.

Senior Corps RSVP

In 2015 the United Way RSVP of Northwest Indiana was awarded the Community Relations Diversity Award from Urban League of Northwest Indiana. Its 332 volunteers serve at 44 community organizations. The program is sponsored by the United Way of Porter County, which covers four counties in the northwest of the state. United Way RSVP has partnered with 16 local organizations to provide meals and companion services to more than 18,000 at-risk seniors – in-home care that allows them to keep living independently and that gives respite for the aging population. There are 155 RSVP volunteers who provide daily meals and access to food; another 68 provide companionship to elderly and disabled citizens throughout the region. Thanks directly to these volunteers, 60 percent of the seniors who were served reported that they had an increase in social support, and 80 percent said that they were now eating more regular meals. Every one of the seniors who were served were able to stay in their own homes because of the dedication of our United Way RSVP volunteers.

Senior Corps Senior Companion Program

Catholic Charities Indianapolis sponsors one of the largest Senior Companion Programs in the country. Senior Companions respond to the acute community need for care and assistance of frail adults who are struggling to remain in their own home. They also give respite for the caregivers. Companions get training before and all during their service so they can offer the best possible care. The training also helps make their volunteer experience a truly positive one. Companions provide one-on-one in-home assistance. On average, they visit five hours a day, three to five days a week. Visiting so often provides time to build relationships, help with meal preparation, do light housekeeping, and escort people to doctors' appointments and other needs. This year, through 6 community partners and 3 low-income senior housing sites, 104 volunteers have served 128 frail adults and given respite to 45 caregivers.

Social Innovation Fund

Damien CareLink, a Social Innovation Fund (SIF) subgrantee of AIDS United, is providing coordinated HIV services and links to care for HIV+ people who aren't currently getting care. People served by the Damien Center have seen their "viral load" – the amount of HIV in blood samples – drop by 91-93 percent. LISC subgrantees in Indiana have served 1,826 people, placed 408 people in jobs, and helped 372 people increase their net worth. Across the state, SIF is investing \$110,155 and expanding the impact of seven nonprofits. The Social Innovation Fund (SIF) transforms lives by using evidence to find what works and make it work for more people. The SIF Classic and SIF Pay for Success programs harness the expertise of grant-making intermediaries to identify, evaluate and expand effective nonprofits serving low-income communities.

Intermediary Grantmakers in Indiana

Location	Intermediary Name <i>Nonprofit Subgrantees</i>	Description
Indianapolis, IN	United Way of Central Indiana	For almost 100 years, United Way of Central Indiana (UWCI) has worked to improve the quality of life for the 1.6 million residents of Indianapolis and its surrounding communities. As a community leader and grantmaker, UWCI identifies community needs, develops strategies and builds collaboration between funders and providers to deliver outcome-based services. The SIF grant will focus on strengthening families in targeted communities in Indianapolis by following Aspen Institute's two-generation model. Great Places 2020 will address key factors that impact family stability—finances, employment, education, health and social capital--through a two-generation program model that serves the whole family unit. UWCI and its' sub recipients will work together to provide integrated neighborhood based Family Economic Success (FES) and Early Childhood Education (ECE) services to at least 1,000 families. Parents will participate in the FES intervention to improve financial stability through education and training, employment and asset building services based on the Center for Working Families model, and children will participate in an ECE program to improve their school readiness.

Nonprofit Subgrantees in Indiana

Program HQ Location	Nonprofit Subgrantee Name <i>Intermediary</i>	Description
Evansville, IN	The City of Evansville Institute for Child Success	The city of Evansville, Indiana seeks support in expanding access to high quality preschool to the city's two and three-year olds who are from at-risk and low-income families with incomes up to 185% of the federal poverty level. Approximately 2,000 un-served children each year may meet the intervention's income requirement. Evansville will likely focus on increased kindergarten-readiness as a measurable outcome.
Indianapolis, IN	Edna Martin Christian Center Local Initiatives Support Corporation (2015)	As an existing integrated services provider, Edna Martin Christian Center plans to build out its bridge programming in four sectors: welding, logistics, culinary and hospitality. Through these pathways, EMCC will serve 80 to 115 people per year to prepare for and enter vocational training, obtain and retain jobs and increase net income, net worth and credit score.
Indianapolis, IN	John H. Boner Community Center Local Initiatives Support Corporation (2015)	The John H. Boner Community Center's Bridges to Careers program will establish the educational foundation and framework from which the community can build its comprehensive adult education continuum. After the initial ramp-up, the Boner Center will serve roughly 84 Near Eastside individuals each year to move into sustainable career pathways. The program will reach individuals who may not qualify for traditional training programs and will prepare them for long-term success.

Nonprofit Subgrantees in Indiana

Program HQ Location	Nonprofit Subgrantee Name <i>Intermediary</i>	Description
Indianapolis, IN	Mary Rigg Local Initiatives Support Corporation (2015)	In partnership with Local Initiatives Support Corporation and Social Innovation Fund, Mary Rigg Neighborhood Center (MRNC) will provide a combination integrated services model and occupational bridge program to improve employment and financial outcomes for participants in Indianapolis. Specifically, MRNC proposes to expand and enhance bridge services it has piloted for the past two years, and proposes to serve 120 inner-Indianapolis city residents annually, resulting in 80 ready-to-work, and credentialed employees each year. MRNC will deliver effective occupational bridge programming in two high-demand local employment pathways as defined by the local workforce investment board - healthcare and manufacturing. MRNC will link candidates to local employers looking to hire qualified candidates in those two targeted industries.
Indianapolis, IN	RecycleForce REDF (2015)	Operating out of Indianapolis, IN, Workforce, Inc. dba RecycleForce, a 501(c)3 organization, is a social enterprise offering some of the most comprehensive and innovative recycling services around while providing life-changing workforce training to formerly incarcerated individuals. Taking the electronic waste and other recyclables provided by residents and corporate partners, RecycleForce deconstructs these items, recycles the materials and disposes of the waste safely and cleanly. The scrap metals and other reusable materials collected in this process are then sold to help pay for job training programs and employment opportunities for formerly incarcerated men and women in order to support their re-entry back into society.
